B.Sc. Part I Examination, 2013 ZOOLOGY

THEORY

Max. Marks
(Min.Pass Marks:54)

Paper I : Animal Diversity and Evolution 50

Paper II : Biology of Nonchordates 50

Paper III : Cell Biology and Genetics 50

PRACTICALS:

Max. Marks 75
(Min Pass Marks:27)

Duration of each theory paper

Duration of practical examination

5 hours

Note: Each theory paper is divided in three parts i.e. Section-A, Section -B and Section -C.

Section-A: Will consist of 10 compulsory questions. There will be two questions from each unit and answer of each question shall be limited up to 30 words. Each question will carry of 1 mark.

Section –B: Will consist of 10 questions. Each unit will be having two questions; students will answer one question from each Unit. Answer of each question shall be limited up to 250 words. Each question carries 3.5 Marks.

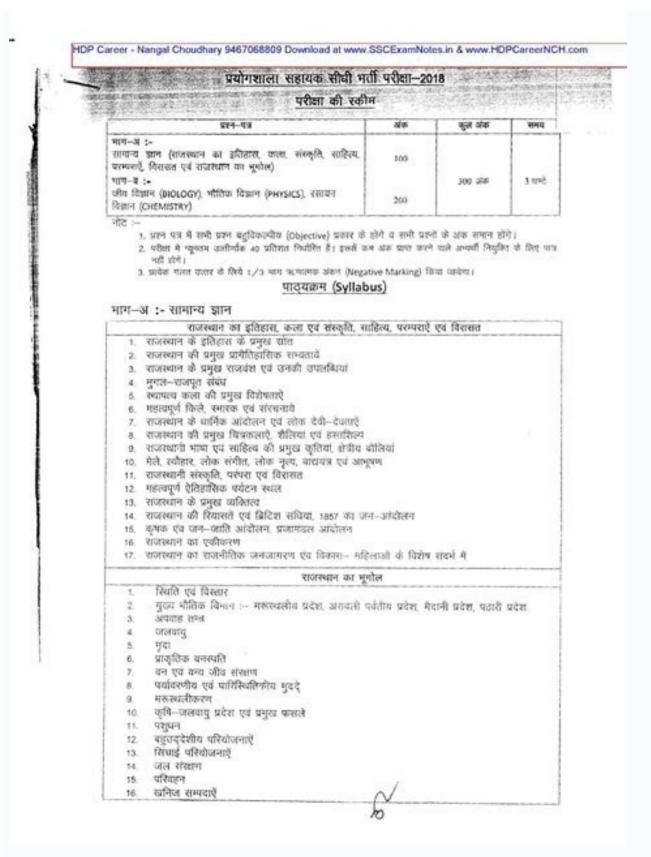

Section-C: will consist of total 05 questions. Students will answer any 03 questions and answer of each question shall be limited up to 500 words. Each question carries 7.5 Marks.

PAPER I

Animal Diversity and Evolution

Functional morphology of the types included with special emphasis on the adaptations to their modes of life and environment. General characters and classifications of all invertebrate phyla up to class with examples emphasizing their biodiversity, economic importance and conservation measures where required.

Unit 1: General principles of taxonomy; concept of the five-kingdom;

MODEL QUESTION PAPER FACULTY OF SCIENCE B. Sc. (First Year) Semester-I EXAMINATION Part-I October/November 2009 Time: 2.10 Hrs CHEMISTRY Marks: 50 (0) Use separate answer book for each paper. (ii) Attempt all questions. Use of logarithmic table and calculator is allowed. A figure to the right hand side indicates full marks. Paper-I: INORGANIC CHEMISTRY Q. 1 Answer the following What is the name of KMgF3. Define electronegativity. What are the causes of chemical bonding? d) Write the types of hybridization and geometry of [Ni (CN)₄]² Q. 2 Answer any two of the following Give the general characteristics of d block elements. Calculate the percentage ionic character of HCl molecule by using Hanny and Smith relation. Given: Electronegativity of H = 2.1; Electronegativity of Cl = 3.5. c) Calculate the electronegativity of fluorine by Pauling's method. Given: $E_{H-H} = 104.2 \text{ Keal mol}^{-1}$, $E_{F-F} = 36.6 \text{ keal mol}^{-1}$, $E_{H-F} = 134.6$ keal mol d) Explain the various postulates of VSEPR. Q. 3 Answer any one of the following a) What is the ionic bond? Explain how energy changes in the formation of ionic bond. b) Define ionization potential. Give its trends in periodic table and explain factors affecting on it?

Bsc bio 1st year syllabus 2021. Bsc 1st year syllabus 2021. Bsc nursing 1st year syllabus pdf 2018. Bsc 1st year physics syllabus 2018-19. What is the syllabus of bsc 1st year.

The B.SC Curriculum aims to train students to specialize in a particular field of study and develop the necessary research skills to develop solutions for complex real -life problems. The division of the course is for six semesters and as the university guidelines provided by UGC. Reading more: BSC Biotechnology subjects B.SC Physics subjects B.SC Physics is one of the domains B.Sc Más Popular of India. Some of the popular specializations and the structure of their corresponding course are listed below: B.Sc Chemistry subjects B.Sc in quasics focuses more than providing knowledge about the applications of the organic and inorgenic chemistry. At the end of the course, students will have a clear vision of applying science in daily applications and the development of research based on resear questions computer -based exam. The questions are in MCQ format. Research can be done as a internship. The list of B.Sc themes in the semester is provided below. In GDP. Dissertations and projects help graduates to analyze the various applications of their study domain and apply the concepts studied to build valuable solutions. Read more: ã ¢ BSC Chemistry subjects B.Sc Agriculture subjects in agriculture offers more depth in agricultural sciences and advanced concepts based â € \(\hat{a}\) € \(\hat{e}\) in research in agriculture. A internship will help them and also increase your experience in the practical world. Because Neet questions are worth four points each, the exam lasts three hours. The course aims to help graduates to apply basic science concepts to the research methodology and develop solutions in any technical domain. The duration of the B.SC course in India is 3 years and is divided into six semesters of study. & Deve.- (I A IV Sem.)-July 2018-May2020 and 2019-2020: M.A. Edu. Some of the teaching methodologies are including: Training sessions based on lectures Laboratory sessions Dissertations are fundamental parts of course B.Sc. BHU offers two types of B.SC courses: B.Sc Bio Group and B.sc Maths Group. Some of the essential subjects of the curriculum include foundations for plant reproduction, food processing and safety problems, plant biochemics, horticulture foundations, etc. ed. Integrated four-year course (Semesters VII and VIII) for the exits of 2019-20 M.A. Community Edu. B. The Biotechnology B.SC program includes subjects that are aligned with constant developments in the field of research. The mandatory project helps students apply the concepts pursued to real -life scenarios. The second -year study plan of B.SC is crucial, since it brings more advanced theoretical subjects on the field. According to the election -based crop system, students are offered several elective subjects, which students can choose depending on their interests in domain and labor aspirations. Semester Wise b.sc syllabus The structure of the B.SC Program consists of basic sciences and based on topics â € < In the domain, which helps students obtain knowledge of science and technology applied and use them in real world stages. Some specialized B.SC studies offer theoretical laboratory sessions, which improves the understanding of students' concepts. Some of the subjects of the program include biological chemistry, immunology, zulas, genius, etc., which offer an in -depth study of fundamental biotechnology. Some of the program subjects include data structures, programming with C++, Fundamentals of Java, Lógico Development, etc. and in Trans (ING.-Pun), 2018,2019, 2020,2021-22: Complement, diploma and ADV certificate. The issues for each group, as well as the distribution of brands for the course, are listed below. Of the curricular subjects include physical chemistry, chemistry of polyels, analytical chemical and much more. EXCHANGES OF THE EXHIENTS SUBJECTS NEET BIOLOGY ZOLOGY examination ELECTION DOCUMENT ã ¢ Read more: neet exams bhu b.Sc Entrance program Exam program The Bhus exam is used to determine the admission to the B.SC courses in BHU. Students who prefer to obtain a broader aspect often choose to carry out internships in the main organizations and develop solutions to organizations. & Adv.
